- Online Math-Tutoring
- Educational institutions and online classroom management
- Online tutoring is the process of tutoring in an online, virtual, or networked, environment, in which teachers and learners participate from separate physical locations.

Project

Title: EasyBuy Grocery Online Store
Duration: 1-Month
Description:

1. **Front-End Libraries and Frameworks:** Front End Development includes creating a user interface website or application. I used HTML, CSS, Bootstrap, and JavaScript to structure the content and develop the web page.
2. **Responsive Design:** Make sure your web pages are responsive and adapt well to different screen sizes and devices like desktops, tablets, and smartphones.
3. **Testing and Debugging:** Regularly test your web pages across different browsers and devices to ensure compatibility and debug any issues.
4. **Back-End and Database:** I have used Java, MySql, and Spring boot to complete some mini projects.

Interests

- Web Designing
- Backend Projects
- Photoshop
